Dec2013-Nov2014 Pareto Analysis

This Pareto chart displays the distribution of incidents for the period Dec2013-Nov2014. The x-axis lists the incident type, 'Laceration'. The left y-axis, labeled 'Incident', shows the count on a non-linear scale with values 0, 0, 0, 1, 1, 1, 1, 1, 1, 1. The right y-axis, labeled '% of Grand Total', shows percentages from 0% to 100% in 10% increments. A single blue bar represents the 'Laceration' incident, reaching a count of 1. A red diamond at the base of the bar indicates an individual percentage of 0%. A green line for cumulative percentage is also present but not visible on this scale.

Incident Type	Number	Individual %	Cumulative %
Laceration	1	0%	0%
